Venezuela (Remote – UTC-4)

Professional Summary

Senior Full Stack Developer with **5+ years of experience** building scalable web applications using Laravel, Node.js, and Vue.js. Proven track record in optimizing system performance (89% faster queries, 87% faster deployments) and handling high concurrency (500+ users). **Certified in TypeScript and SOLID Principles**, demonstrating commitment to writing robust, maintainable, high-quality code. Passionate about clean architecture, testing, and delivering business value.

Technical Skills

- **Languages & Frameworks:** PHP (Laravel 8-11, CodeIgniter), Node.js (Express), TypeScript, JavaScript, Vue.js, Livewire, Eloquent ORM, Laravel Auth
- **Frontend:** HTML5, CSS3, Tailwind CSS, Inertia.js (familiar), Responsive Design
- **Databases:** MySQL (advanced: indexes, joins, optimization), MS SQL Server, Redis (basic)
- **Testing & Tools:** PHPUnit, Pest PHP (basic), Git, GitHub, Jira, Slack, Scrum
- **DevOps & Infrastructure:** Docker, Docker Compose, NGINX, VPS, GitHub Actions CI
- **Principles:** OOP, SOLID, Clean Architecture, RESTful APIs

Work Experience

Sentientinfo

Senior Full Stack Developer

Mexico (Remote)

Apr 2024 – May 2025

- Built a large-scale survey platform with **Laravel + Livewire**, reducing database query time by **30%** via optimized indexes and caching.
- Developed a chatbot subscription management system (CodeIgniter) handling **500+ concurrent users** with zero downtime.
- Designed **RESTful APIs** (Swagger) integrated with Vue.js frontend, cutting integration errors by **20%**.
- Wrote **PHPUnit tests** for critical modules, achieving 85% code coverage.

Freelance / Independent

Lead Full Stack Developer

Remote (Peru & Venezuela)

Nov 2019 – Dec 2024

- Architected modular billing and inventory systems that increased operational efficiency for **3 SMEs** by **40%** (order processing time).
- Led **4 e-commerce projects** using Laravel, Vue.js, MySQL – achieved **99.9% uptime** in first year.
- Full DevOps setup: Docker, NGINX, VPS, GitHub Actions – reduced deployment time from **2 hours to 15 minutes** (87% improvement).
- Integrated external APIs (payment gateways, SMS, WhatsApp) for real-time notifications.

Freelance (Part-time)

Frontend Developer (Vue.js/Livewire)

Remote

Oct 2021 – Jul 2023

- Built interactive UI components for a language-learning platform with **10k+ monthly users**, improving retention by **15%**.
- Converted Figma designs to responsive HTML/CSS/Vue.js, achieving **98% design fidelity**.

Novoples C.A.

Full Stack Developer

Valencia, Venezuela

Sep 2015 – Jan 2018

- Maintained modules for “Liit System” (Argentina client), resolving **50+ critical bugs** and adding 8 new features.
- Optimized complex SQL reports from **45 seconds to 5 seconds** (89% faster) through indexing and query rewriting.

Public Institutions (Freelance)

PHP Web Developer

Venezuela

Aug 2014 – Jan 2018

- Built incident management system for Valencia’s Fire Department, reducing logging time by **70%** (15 min → <5 min per incident).
- Digitized **200+ monthly requests** for Municipal Environment Institute (IMA) using PHP/MySQL.

PGFA, Perales, Pistone & Asociados

PHP Web Developer

Venezuela

2013 – 2014

- Implemented audit management system with Yii Framework, PHP, Bootstrap, and RBAC access control.

Education

Informatics Engineering (3 years)	Instituto Universitario de Tecnología de Valencia (2013–2016)
Technical Degree in Informatics	Instituto Universitario de Tecnología de Valencia (2002–2008)

Certifications

- **TypeScript: Your complete guide and handbook** – Udemy (2026) – [Verify Certificate](#)
- **Apply SOLID Principles and design solid and scalable software** – Udemy (2025) – [Verify Certificate](#)
- SOLID Principles – Udemy
- JavaScript Basics – Code School
- HTML Fundamentals – Code School
- Shaping up with Angular.js – Code School

Languages

- Spanish – Native
- English – Intermediate (B1) – able to read technical docs, participate in daily standups, and write documentation.

Key Achievements

- Query optimization: **45s → 5s** (89% faster)
- Deployment time: **2h → 15min** (87% reduction)
- E-commerce uptime: **99.9%** over 12 months
- SME efficiency: **+40%** in order processing
- Handled **500+ concurrent users** with zero downtime
